MINISTRY OF INFRASTRUCTURE AND TRANSPORT

Logistics & Freight Services at the Centre of Developments

The Growth Philosophy of the Fair

With the Greek Logistics gradually conquering the place it deserves in the broader entrepreneurial area and the National Plan for the transformation of the country into a 'vital' Logistics Hub for South-Eastern Europe being fully under way, the organization of the unique in its field 7th "Supply Chain & Logistics - Cargo Truck & Van Expo 2019" Fair on November, 9-10-11, 2019 could not possibly be more topical or vitally important!

o.mind Creatives, the organizing company and publisher of the market periodical Supply Chain & Logistics magazine, invite you all, Exhibitors, State representatives, Bodies - Supporters, National Participations and internationally renowned exhibitors to 'Build International

Networks' of cooperation and promotion of modern Supply Chain services in a broad globalised market.

The upgraded transport infrastructures, the transnational agreements for cooperation on the level of Combined Transport, the

Development 'wind' which is blowing in the two major ports of our country, those of Piraeus and Thessaloniki, as well as a number of investments which are expected in 2019 create an environment of 'recognition' of the Supply Chain field, which through the new technology and the 'tools' of the Industry 4.0, is now turning into a Value Chain, creating International Cooperation Networks.

NOVEMBER
9-10-11
2019

The "Supply Chain & Logistics - Cargo Truck & Van Expo" Fair, after being held for 12 years and given the successful cooperation between the fields of the Supply Chain and Professional Vehicle, has emerged as a meeting point for all the professionals who are involved in the export trade, the management of the supply chain and related sectors.

o.mind Creatives, having inaugurated a new philosophy in the Fair experience, continues offering exhibitors services of interconnection and cooperation, thus empowering the B2B meeting platform not only among exhibitors but also among interested parties from the Greek and the whole international market.

At the same time, paying particular attention to raising the international profile of the Fair,

o.mind Creatives continues the cooperation with bilateral Chambers of Commerce, embassies and foreign bodies in anticipation of the participation of foreign companies either individually or possibly via national pavilions. Our target is the strengthening of the collaboration between Greek and international companies, the conclusion of agreements as well as the boosting of trade and supply chain services.

With the core message 'WE BUILD INTERNATIONAL NETWORKS', the organizing company o.mind Creatives and the Supply Chain & Logistics magazine invite you once again to become fellow travelers in the journey towards jointly seeking the 'tools' which will lead our market to the future.

The 7th Fair more Comprehensive than Ever!

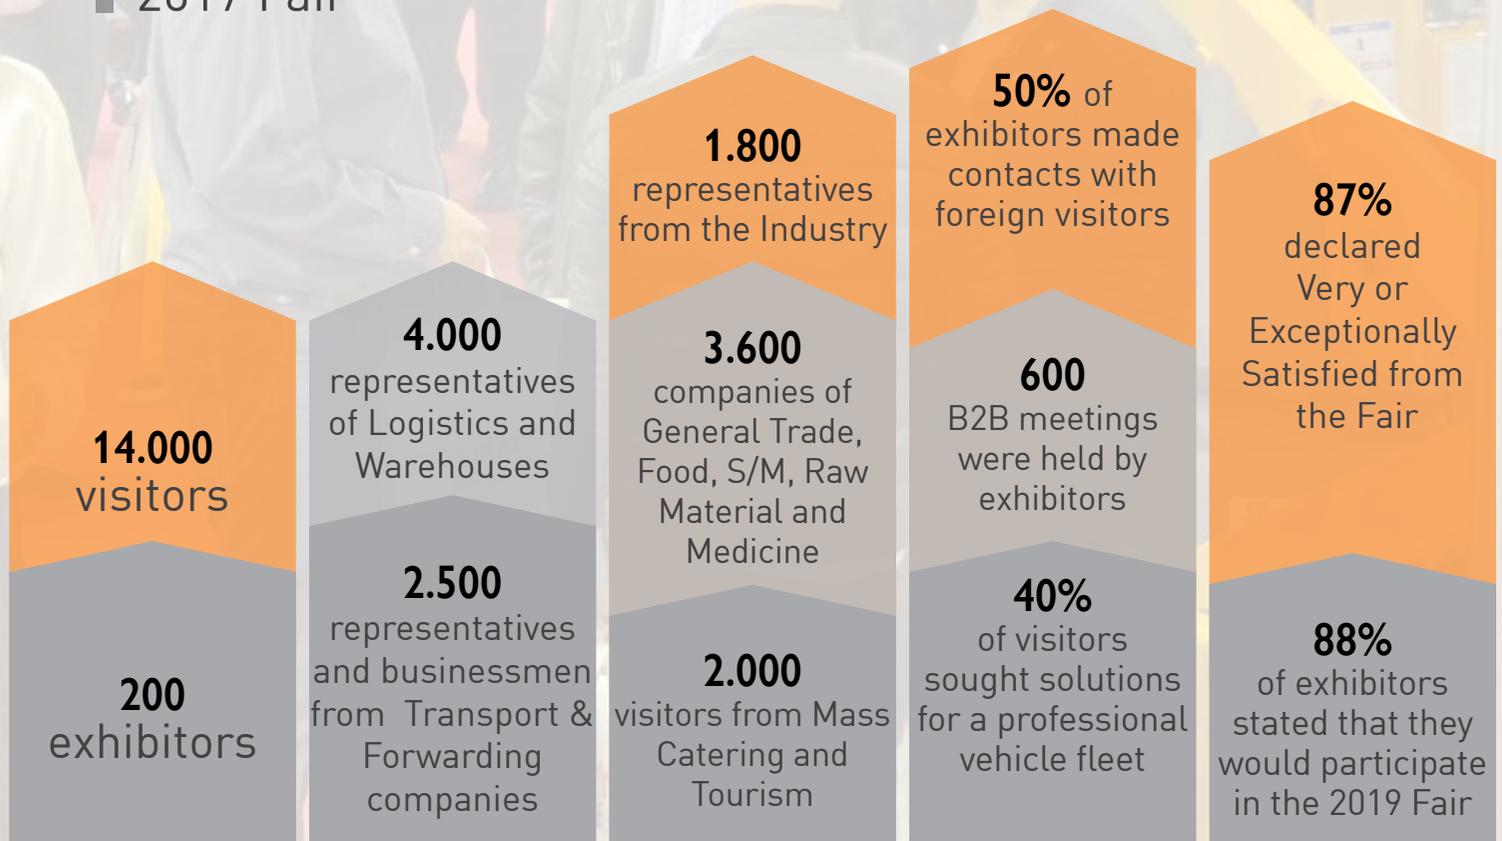

Having followed an intensely upward growth trajectory and in the wake of a highly successful Fair in 2017, the 7th Fair in 2019 is expected to bring together exhibitors and visitors in order to provide solutions in the organization of the supply chain and logistics and bring into contact the Greek and the international markets. Larger than ever, the participation in the Supply Chain & Logistics - Cargo Truck & Van Expo 2019 is expected to exceed by far the previous Fair and to attract thousands of visitors both from Greece and abroad.

The sector of the supply chain, freight services and Logistics technology will, for many years, constitute the protagonist in the Greek economy and its GDP growth, of which there is already strong evidence.

Large infrastructure works have already been constructed, significant private investments for the improvement of infrastructures have been made and the port of Piraeus has developed into the 3rd most significant in Europe: these are the first indications of the recovery of this market.

In this new and growing market, we invite all of you to participate in the 7th Supply Chain & Logistics and the 2nd Cargo Truck & Van Expo Fair and invest in the future of your business and the market.

seek relevant moves from their collaborators-providers

Logistics Meet the Future Trends

The Information Technology revolution of the Industry 4.0 at the service of the Supply Chain

Given the targets for the 'Digitalization of Transport' (as is expressly mentioned in the National Supply Chain Action Plan of the Ministry of Infrastructure, Transport and Networks), the companies which provide solutions-tools for the digital transformation of the supply chain will also be present in the 7th "Supply Chain & Logistics - Cargo Truck & Van Expo 2019" Fair.

These will include companies which manage Big Data, have Analytics 'tools', know how to advise modern Logisticians so that they take full advantage of the blockchain tools and enter the Internet of Things (IoT), thus 'building', in their turn, dynamic, undisturbed networks.

Besides, in the European Agenda for Viable and Intelligent Transportation 2030, the target has been clearly set: "Transformation of the supply chain through the use of AI - IoT". New technology is no longer a 'tool' which each industry may choose how to utilize. The new era is here in order to fundamentally transform the industry, causing a 'revolution' which has become known by the term Industry 4.0.

According to the World Economic Forum, in just 6 years from now – in 2025 – the digital transformation of the industry we today call 'logistics' could provide added value of 1.5 trillion US dollars while the adoption of a sustainable philosophy for the viability of businesses could bring an additional 2.4 trillion US dollar profit.

The 2030 European Agenda states that today "Supply Chains which have become Value Chains are turning into Smart Chains, by making full use of the potentials provided by the new reality of Artificial Intelligence, Internet of Things, Big Data Analytics, Blockchain"... Thus, Logistics is rapidly being transformed into Logistics 4.0 and those involved both in the Greek and the international market will have the opportunity – through the 7th "Supply Chain & Logistics - Cargo Truck & Van Expo 2019" Fair – to see, first hand, solutions and services which will bring them one step closer to ... the future.

10% - 20% increase in the demand forecasts for Analytics services

20% decrease in development cost when data analytics tools-solutions were used for the 'organization' of the supply chain

>> Why you should participate

Your participation in the “Supply Chain & Logistics - Cargo Truck & Van Expo 2019” Fair provides significant advantages for your business with multiple compensatory benefits since it is the one and only fair of this kind which is held in the country and consequently an excellent opportunity for outward-looking entrepreneurship in a market of incredible dynamic and growth. • You consolidate the position of your company and you boost your image and company brands by making significant professional contacts and collaborations. • You present and promote your products and services to a large group of buyers and businessmen in an effective and direct way • You enlarge your customer base by including new dynamic clients. • You approach new markets • You strengthen the supply chain and logistics sector

>> Turn all eyes on you!

Cooperation with bilateral Chambers of Commerce and Embassies in order to attract foreign Visitors and Exhibitors

In our effort to expand the Fair beyond the Greek borders and attract foreign visitors and exhibitors, o.mind Creatives, the organizing company, has made contacts and collaborations with active bilateral Chambers of Commerce in our country and the commercial departments of embassies in order to promote and raise awareness about the Fair in foreign countries. Our target is to inform companies which have an interest in cooperating with Greece in order to visit the Fair as visitors or participate as exhibitors in group pavilions and enter into trade agreements with Greek businesses.

At the same time, the participation of the organizing company in fairs abroad in order to promote the “Supply Chain & Logistics - Cargo Truck & Van Expo 2019” Fair and attract visitors and exhibitors is established, standard practice which has borne fruit in the previous Fair and which will be intensified even further for the 2019 Fair.

Finally, our cooperation with leading international periodicals on logistics and well-established news portals is part of our promotional activities to be used again this year in order to internationalize the Fair.

>> Watch highlights of previous Fairs at www.sce.gr

The advertising promotion of the Fair in Greece and abroad

Through a dynamic advertising promotion, the “Supply Chain & Logistics - Cargo Truck & Van Expo 2019” Fair will carry a powerful message to the vast market it targets. The aim is to energize and invite every small or large Greek business to the Fair so that they can find solutions through the better organization of their supply chain, the modernization of their warehouse, transport and delivery methods. With extrovert orientation, o.mind Creatives, the organizing company, consolidates collaborations with major Logistics periodicals in Europe and south-eastern Mediterranean in order to transmit the message and invitation to the Fair beyond the Greek borders as well. Furthermore, on 4-7 June 2019 we will participate (by means of an exhibition stand) in “transport logistic”, the largest fair on transport and logistics organized in Munich, Germany.

o.mind Creatives has planned the following promotional activities:

- Television promotion through commercial spots in channels of countrywide range in Greece
- More than 1,000 TV spots
- Radio promotion through advertising spots in high-rating radio stations throughout the country
- Outdoor promotion in main roads
- Classified advertising and Press releases in newspapers and sectoral periodicals in Greece and abroad
- Promotion through the Internet, information newsletters and the social media
- Promotion through the “Supply Chain & Logistics” magazine
- Promotion through www.supply-chain.gr and the weekly Supply Chain News newsletter
- Promotion of the Fair through the participation of the organizing company in other sectoral fairs and conferences both in Greece and abroad
- Mailing and distribution of 200,000 invitations in Greece and abroad

>> Advertising spending for the Fair will increase by 100% compared to that for 2017

2017 Highlights

Sectors & Exhibits of the Fair

LOGISTICS, CARGO & FREIGHT SERVICES

- Storage, Logistics services, 3PL, 4PL
- Transport and Distribution services
- Road Transport (international & national) and Distribution
- Cargo maritime transport, Shipping Companies
- Air transport
- Rail transport
- Freight Forwarders
- Courier companies
- Real Estate Logistics
- Container Sale and Lease
- Consultants in logistics organization

WAREHOUSE EQUIPMENT - MATERIAL HANDLING

- Forklifts and warehouse internal transport machinery
- Shelves and Warehouse & Retail Management Systems
- Hand Trucks, Cargo Lifts, Warehouse Labelling and Signage
- Conveyor belts, Internal Transport Lines
- Bar coding, Rfid, Ex-Van, Picking systems
- Computer and logistics systems (WMS, ERP, CRM)
- Retail shop IT systems
- Industrial refrigeration (cold store chambers, machinery, Food logistics)
- Construction of industrial buildings and warehouses
- Industrial Roller Shutters, Ramps, Loading Bridges

PROFESSIONAL VEHICLES - "CARGO TRUCK & VAN Expo"

- Professional transport and distribution vehicles
- Heavy Goods Vehicles (haulers & trailers)
- Light Commercial Vehicles (van, vanette, pick-up)
- Freight Transport Vehicle Bodies
- Professional Vehicles Expendables (tyres, lubricants, fuel, spare parts etc)
- Transport technologies, Telematics and Services
- Leasing & Professional Vehicles Rental

TRANSPORT AND HANDLING PACKAGING

- Cargo Packaging Machinery And Materials
- Pallets, Cardboard Boxes, Packaging Sacks, Barrels
- Straps & Cargo Fastening Materials
- Marking, Printing and Labelling
- Handling And Transport Secondary Packaging
- Robot systems, palletizing machinery
- Repackaging and services
- Recycling (machinery and services)

>> Material Handling Presentation of Automation and Warehouse New Technologies

In the organization of every fair a prominent position is held by companies which provide solutions for the warehouse equipment, material handling, transport and secondary packaging. Lifting machinery and forklifts, automation and technologies, warehouse shelves, internal transport systems, bar coding, warehouse labelling and signage systems and secondary packaging machinery and a lot more will be presented in the Fair so that visitors are brought up to date with new technologies required for the organization of a modern warehouse.

Professional vehicles 'meet'

Cargo Truck & Van Expo 2019 Professional Vehicle Fair in Hall 4

For the second time in the history of the Fair, the sector of the Professional Vehicle and the solutions which can be provided by the major car manufacturers to the management of the modern Supply Chain, especially in an urban distribution setting, but not only, will have an autonomous presence.

In Hall 4 of the Metropolitan Expo Exhibition Centre as well as in the area outside the Hall itself, car manufacturers and their representatives in Greece will have the opportunity to present to the Supply Chain market all the new solution platforms which they have already launched abroad for the "Interconnection between distribution and vehicles" and "Transportation as a service" while a prominent position will be held by professional vehicles, from van-vanettes to heavy goods vehicles.

At the same time, decreased carbon footprint in professional vehicles, engine modifications and the green Supply Chain will occupy a central place in the Fair.

Linking the "Supply Chain & Logistics" Fair to the "Cargo Truck & Van Expo" area constitutes a successful blend for the promotion of professional vehicles in the new era for logistics which Greece is entering. The approval and participation of car dealers in this synergy is expected to be even greater and more comprehensive in 2019!

The following categories will be presented in the Fair:

- Trucks and Heavy Goods Vehicles
- Vans, Vanettes, Pick Ups and Mini Buses
- Superstructures and Trailers
- Tyres, Lubricants, Fuel etc
- Telematics systems and technologies
- Professional Vehicle Leasing & Rental

Dynamic participation from Transport companies & Logistics Services

The entire commercial transportation community will be presented in the 2019 Fair: agencies, national and international road transport companies, freight forwarders, companies providing logistics & food logistics services, shipping companies as well as courier companies. o.mind Creatives, the organizing company, in collaboration with exhibitors, aims at presenting a full picture of the transport needs of every Greek or foreign company which will visit the Fair.

2017 Highlights

Logistics

CARGO
**Truck
& VAN**
EXPO 2019

>> Green Logistics

Green technologies in Transport and Warehouse to be presented:

- Electric Professional Vehicles
- Hybrid Forklifts
- Green Warehouses
- Natural Gas
- Engine Modifications

The decreased carbon footprint is the challenge to be met by modern entrepreneurship. Shifting to green energy and reduced CO2 emissions is the trend of today and the demand of tomorrow. In this year's Fair, the exhibitors will present alternative energy sources for forklifts, professional transport vehicles as well as for warehouse functioning. We all require a better environment and alternative energy sources. The Supply Chain and the freight transport sector must offer solutions and implement the "Green Supply Chains" more urgently than ever before.

Visitors to the Fair

20,000 visitors from Greece and abroad

Visitors to the Fair are businessmen and managers from all the sectors of the Industry, Crafts and Commerce as well as from the sector of Freight Transport from Greece and abroad.

More specifically, they come from the following business categories:

- > Commercial companies from all sectors which use a warehouse and need to transport goods
- > Wholesale and Retail Commerce, e-shops, Supermarket Chains
- > Industries and Crafts from all the manufacturing sectors such as Food Industries, Pharmaceutical industries, Clothing and Footwear industries, Building materials & accessories, spare part warehouses, Agricultural produce, Fertilizers etc

- > Companies from the fields of Transport, logistics, distribution, courier and storage
- > Companies with distribution and transport fleets
- > Commercial companies dealing in warehouse organization and equipment
- > Public utility services (DEKO), local authorities (OTA), Army Corps, Banks, Public sector and Institutional bodies
- > Professors, Business consultants, university students

• From the above business categories, visitors to the Fair will be:
Businessmen, General Managers, Supply Chain & Logistics Managers, Financial consultants, Factory Managers, Warehouse Managers, Import- Export Directors, Procurement Directors, Quality Assurance officials, Fleet managers, machine operators, warehouse staff, professional drivers and motorists.

The Exhibition Centre

METROPOLITAN EXPO EXHIBITION CENTRE
EL VENIZELOS INTERNATIONAL AIRPORT - ATHENS

The 7th "Supply Chain & Logistics- Cargo Truck & Van Expo 2019" will be held in the state-of-the-art METROPOLITAN EXPO Exhibition Centre at the 'El. Venizelos' Athens International Airport (at the end of Attiki Road). The Fair is upgraded and enriched with the facilities offered to exhibitors and visitors by the Exhibition Centre. METROPOLITAN EXPO is the most advanced and modern Exhibition Centre in Greece today, bringing together a plethora of benefits such as:

- State-of-the-art facilities and high quality benefits for exhibitors and visitors at a roofed exhibition space of 45,000 sqm

- Easy access by car or public transport (Metro, Suburban Railway, bus) from all the Attica basin and the national road network (via Attiki Road, exit to the Airport)
- Direct visitor access, allowing for same-day visits due to its proximity to the airport and the shuttle bus service which offers access to the exhibition centre within 5 min
- Comfortable free parking
- Restaurant, Café and shopping at the Airport's Retail Park

11th “Logistics Conferences”

Logi.C 19
LOGISTICS CONFERENCES

Side Events, One-Day Symposia, Workshops

One of the best-known events in the field of Supply Chain, Logistics and Transport, the LOGI.C multi-conferences, organized by o.mind Creatives under the supervision of the Supply Chain & Logistics magazine and the scientific support of businesses and institutional bodies in the sector, is coming back for the 11th time.

Its target, as always, is to create events of added value for all those who are scientifically or professionally involved in the management of the Supply Chain, Logistics as well as Transport.

Some thematic topics which will be dealt with in the LOGI.C are:

- Developments in the National Transport and Logistics Plan
- Digital transformation of Supply Chains in action
- Future Trends in the market – What do the indicators show? What does the market need?
- Green Supply Chain – Transport and Urban Environment – New Fuel, Electromobility And Corporate Social Responsibility
- Building new International Trade and Distribution Networks – The role of new executives

‘B2B’ commercial meetings between exhibitors and foreign visitors and Greek businessmen

In the previous 2017 Fair, o.mind Creatives, the organizing company, introduced an innovation to the exhibitors: the method of direct B2B meetings between exhibitors and visitors from Greece and abroad. This particular method proved extremely successful in organizing B2B meetings* since any visitor to the Fair could plan and coordinate their professional meetings in the Fair. Exhibitors will be able to accept requests for meetings which will be held at their Fair stands or in the specially designed “B2B Meeting” areas.

* 600 B2B meetings took place during the 2017 Fair
